

Formulary Benefits Data Consent Form

Formulary Benefits data is maintained for health insurance providers by organizations known as Pharmacy Benefits Managers (PBM). PBM's are third-party administrators of prescription drug programs whose primary responsibilities are processing and paying prescription drug claims. They also develop and maintain formularies, which are lists of dispensable drugs covered by a particular drug benefit plan.

By signing below, I give my permission for **The Center for Sleep and Pulmonary Medicine** to access my pharmacy benefits data electronically through RxHub®. This consent will enable **The Center for Sleep and Pulmonary Medicine** to:

- Determine the pharmacy benefits and drug co-pays for a patient's health plan.
- Check whether a prescribed medication is covered (in formulary) under a patient's plan.
- Display therapeutic alternatives with preference rank (if available) within a drug class for non-formulary medications.
- Determine if a patient's health plan allows electronic prescribing to Mail Order pharmacies, and if so, e-prescribe to these pharmacies.
- Download a historic list of all medications prescribed for a patient by any provider.

In summary, we ask your permission to obtain formulary information, and information about other prescriptions prescribed by other health providers using RxHub®.
